

Exercise 1-7

```
rectMode (center);  
rectMode (center);  
fill (0); fill (255);  
fill (0); fill (150);
```

```
rectMode (center);  
rectMode (center);  
fill (255);  
fill  
stroke (0);  
fill (255);  
rect (100, 100, 50, 50);  
fill (150);  
rect (100, 300, 300, 25, 25);  
fill (150);  
line (90, 200, 80, 250);  
line (110, 200, 120, 250);
```

rect function draws a rectangle
rectMode function allows the computer to
know the positioning of the rectangle
such as corner / center

pixel is a space on coordinate
HSB stands for Hue, saturation, and brightness
which helps in specifying colors.
